1. Raise and support the vehicle. Refer to Lifting and Jacking the Vehicle.

2. Unlock the range selector lever cable adjustment clip (1).
3. Ensure that the transmission manual shaft lever (2) is in the park (P) position.
4. Lower the vehicle.
5. Ensure that the transmission control shift lever is in the park (P) position.
6. Raise the vehicle.

Caution: Refer to Fastener Caution.

7. Hold the selector lever on transmission to eliminate any play.

8. Lock the range selector lever cable adjustment clip (1).
9. Inspect the operation of the starting system with the shift lever in each position. The engine should only crank when the lever is in the PARK or NEUTRAL position.
